## BOOKKEEPING FUNCTIONS

The game is designed to help the operator perform certain accounting functions. The game can display the number of total plays and replays (free games). It can display the number of coins dropped down each coin chute. The bookkeeping functions are displayed on all player score displays simultaneously. An identification number, 05 to 15, appears on the Match/Ball in Play window as follows:

- 05 - 00 to- 40=Current Credits
- \*06 - 10000 to-99999=Total Plays (Payed & Free Games)
- \*07 - 10000 to-99999=Total Replays (Free Games)
- 08 - 00 to-99999=Game Percentage
- 09 - 00 to-99999=Total times "High Score to Date" is beat
- \*10 - 10000 to-99999=Coins Dropped thru Coin Chute # 1
- \*11 - 10000 to-99999=Coins Dropped thru Coin Chute # 2\*\*
- \*12 - 10000 to-99999=Coins Dropped thru Coin Chute # 3\*\*
- \*13 - 00 to-99999=Number of Specials awarded from Playfield Specials On
- \*14 - 00 to-99999=Number of minutes of Game Play (Total)
- \*15

The game displays the first bookkeeping entry if the Self-Test button (See Fig. III) on the inside of the front door is pressed ten times. Alternately push and release the Self-Test button at one second intervals. The number 05 appears in the "Match/Ball in Play" window. Current credits appear on the player score displays. Each additional press of the button causes the next entry to be displayed.

After the data in each bookkeeping register is recorded, it can be set to zero simply by pressing switch button RED located on front door or by pressing the Coin Chute # 3 switch. Any or all registers can be cleared by alternating between the Self-Test button and the switch button front door or Coin Chute # 3 switch. The operator is given this option as a possible convenience and can elect to use or not use it as his needs direct.

Pressing the button 5 more times causes the game to play the power-up tune and light the Game Over light.

Service credits are designed to allow the serviceman to test the game under actual play conditions without disturbing the bookkeeping records that reside at identification number 06, 07, 10, 11 and 12.

To obtain Service Credits, push and release the Self-Test switch until identification number 05 appears in the "Match/Ball in Play" window. Hold in the Credit button until the desired number of Service Credits (up to five) appears on the player score displays.

NOTE: If, upon accessing identification number 05, a number of credits greater than five is displayed, pressing the credit button has no effect.

### C. FRONT DOOR GAME ADJUSTMENTS

#### High Score Feature Adjustments:

The game is designed to award an extra ball (option) of a free game at each of three score levels. The recommended levels are on the score card in the game.

Any level from 10.000 to 990.000 can be set, as desired. It is also possible to reset or turn off (00) any or all of the levels, if desired.

1. Push and release Self-Test button (See Figure III) at one second intervals approximately six times or until identification number 01 appears on the "Match/Ball in Play" display.
2. The number on the Player Score Displays is the score level\* It can be increased, if desired, by holding the credit button in. To decrease the score level, hold the credit button in and depress and release the Self-Test button. Release the credit button when the desired number appears. Note that the level changes 10.000 points at a time. If the number "00" is left on the displays, the high score feature is eliminated for that level.
3. Repeat steps 1 and 2 for the second score levels. The identification numbers "02" for "03" see pag. 3 on the Match/Ball in Play display are for the second levels.

#### High Score to Date and 10.000.000 Feature:

The game is designed to award free games when "High Score to Date" is beat, or if the palyer exceeds 10.000.000 points.

It is recommended that the level, which will build with play, be periodically reset to the factory recommended level to encourage game play.

The adjustment procedure is the same as for the High Score Feature Adjustment, Steps 1 and 2. Continue pushing the Self-Test button until the identification number "04" appears on the "Match/Ball in Play" display and then do Step 2.

Any level from "00" to 9.990.000 can be set as described. It is to be noted that "00" does NOT turn off the feature, as it does on High Score feature. The feature is turned off by self test position 19 as discussed under "Back Box Game Adjustments".

#### SELF TEST SETUP FOR 16-19:

To set up positions 16-19 push and release self test button till 16 shows on match/ball in play. Now pulse replay button for recommended setup from "00" thru "03". Repeat for positions 17, or 19.

#### SOUND

In addition to game sounds, there is also a Master Volume Control located on the front door.

Please note that these module volume controls should be adjusted prior to setting the control on the front door.

#### HIGH SCORE FEATURE:

The game is designed to award an Extra Ball or Free Game at each of the two or three score levels.

See Front Door Game Adjustment.
