RACETIME

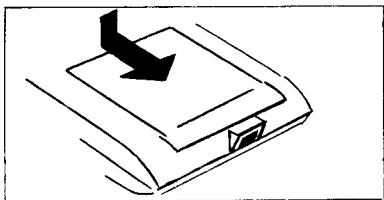

INSTRUCTIONS

- Please read carefully before playing.

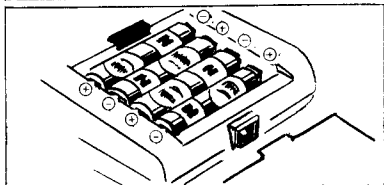

2. TO INSERT BATTERIES

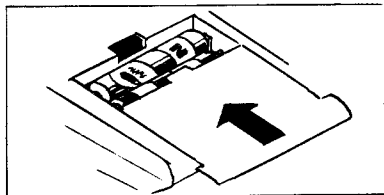

● Play with Batteries

(1) Slide and open battery cover as per arrow indicator.

(2) Place 4 penlight batteries as shown in Diagram. Do not reverse the direction.

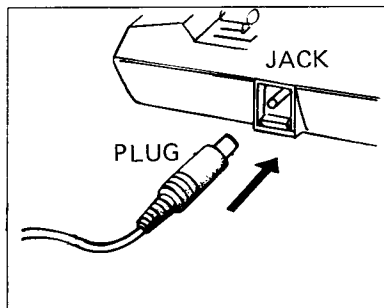

(3) Slide and close battery cover.

Note: After playing, it is recommended that batteries be taken out.

● Play with A/C adapter

This game can be played with an adapter.
(Please use only an exclusive adapter.)

(1) Insert plug of A/C adapter to jack on game.

Exclusive adapter is available by written request with a check or money order in amount of US\$5.00 to:

BANDAI AMERICA, INC.
6 Pearl Court
Allendale, N.J. 07041

3. FUNCTIONS

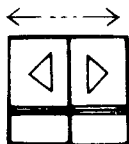

- **Power Switch**

Switch on to start game.

Switch off after final score is registered.

Switch on to start game again.

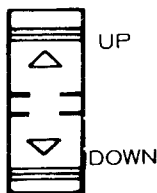

- **Action Buttons**

Use these buttons to move your car from lane to lane.

Arrows indicate what direction car will move.

Your car moves one lane per press.

- **Speed Control Button**

Control your car's speed by pushing up and down side.

Forward: Press "UP" side your car's speed increases.

Your car moves forward one step per press.

Backward: Press "DOWN" side, your car's speed decrease.

Your car moves backward one step per press.

- **Digital Counter**

Fluorescent display indicates score in miles.

If you score more than 99 miles – the following will appear:

100~109 *00*~*09*

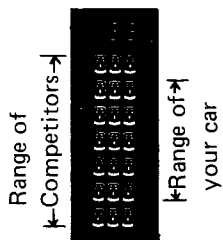

110~119 *10*~*19*

120~129 *20*~*29*

130~139 *30*~*39*

140~149 *40*~*49*

150 come back to *0*

- **Display of your car and competitor on screen**

Center portion of your car is indicated in red.

Competitors are indicated in green. Each car moves in their range as shown in diagram.

4. HOW TO PLAY

OBJECT: SEE HOW MANY MILES YOU CAN SCORE AVOIDING COMPETITORS WITHIN 100 SECONDS. (Maximum)

- (1) Switch power "ON" – your car, competitors and digital counter will light up after opening sound.
- (2) Move your car forward avoiding crashers with competitors by operating speed control button and action buttons.
- (3) You'll score higher points in upper position.
- (4) When your car collides, a red explosion occurs and your green car flashes 3 times.
Every time you crash, two seconds is deducted and your car is returned to start line.
- (5) Digital score will begin flashing 10 seconds before game is over. When game is over, you'll hear fanfare and digital counter indicates your score.
- (6) To play again, switch "OFF" and switch "ON" again.

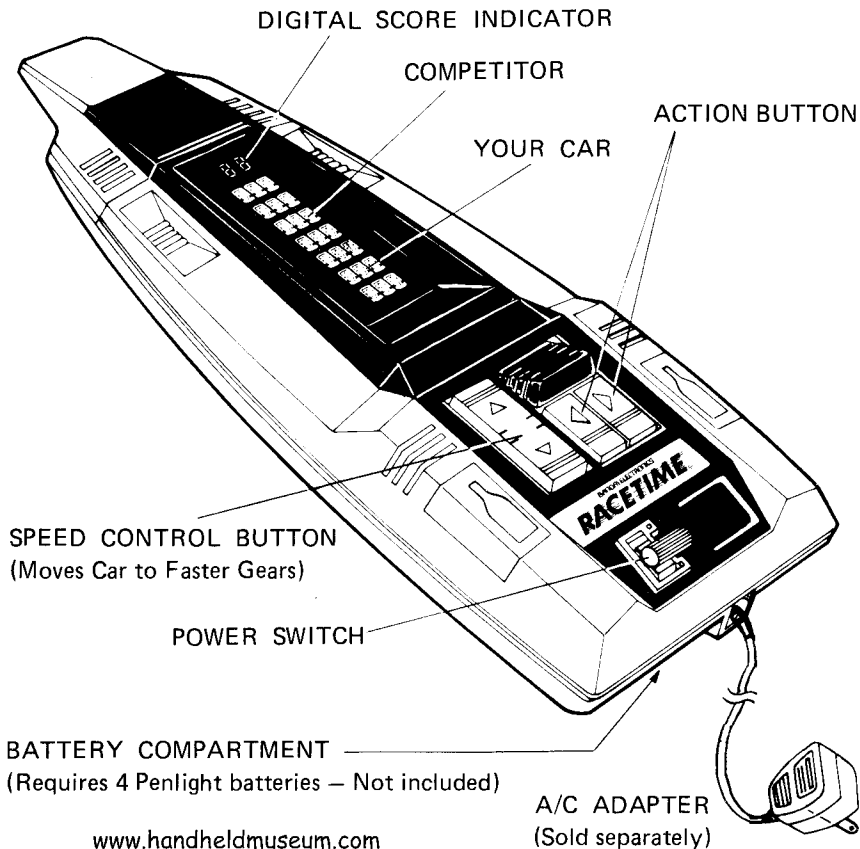

If you push action button and speed control button at the same time, your car doesn't move.

5. SOUND EFFECTS

This game features the following sounds:

- Opening sound
- Crash sound
- Driving sound
- Game over sound
