### **Object of Game**

Yucatan Sam explores the temples of Quintana Roo searching for the keys to open the ceremonial vault and acquire the riches inside.

### **Level Select Screen**

On this screen you select the level of play at which you wish to start. Press the proper key sequence (secret code discovered during play) for upper levels. Press the START button for first level.

### **Outside Temple Screen**

On this screen Sam must evade the poisonous snakes while climbing the outside of the temple to reach the portals to the rooms inside. Beware of the moon god's wrath reflecting from the eyes of the temple. Use the joystick left, right, left-up or right-up to move around the outside of the temple. Pressing a bottom fire button causes Sam to duck if he is outside a portal. Pressing a bottom fire button causes Sam to enter the temple if he is in a portal.

### **Chute Screen**

On this screen Sam is entering or exiting a temple room. The joystick is not used on this screen.

### **Inside a Temple Room**

On this screen Sam can move around the floor of the room using the various tools and weapons. Press the joystick in any of the eight directions to move Sam.

Pressing the 1 key causes Sam to draw his gun. Pressing a bottom fire button, while the gun is drawn, fires the gun. The number of bullets Sam has left is shown at the bottom right of the screen.

Pressing the 2 key causes Sam to grasp a flask of acid. Pressing a bottom fire button, while the acid is in Sam's hand, causes Sam to throw the acid. The amount of acid Sam has left is shown at the bottom left of the screen.

Pressing the 3 key causes Sam to grasp his chisel. Pressing a bottom fire button, while Sam is holding the chisel, causes Sam to use his chisel.

Pressing the 4 key causes Sam to read his Geiger counter. The Geiger counter reading is shown at the bottom center of the screen. A low value indicates nothing exciting. A mid value indicates that there is an object in the room above or below the one Sam is in. A high value indicates that there is an object in the room.

Pressing the 5 key causes Sam to drop whatever he is carrying.

Pressing the 6 key causes Sam to pick up a map rock if he is standing over one.

Pressing a bottom fire button causes Sam to squat and pick up objects if he has nothing in his hand. This will also allow Sam to exit a room if he is standing in the doorway.

### **Adversaries**

Inside the temple Sam will encounter the following enemies:

- snakes — destroyed by shooting
- spiders — destroyed by shooting
- mummies — destroyed by acid

### **Treasures**

Inside the vaults Sam will find the following objects:

- map rocks — used to open vault
- treasures — used to score points
- acid — restocks Sam's supply

### **Magic Herbs**

If Sam is bitten by a snake or spider he has one minute to find the magic herbs and pick them up thereby curing himself. The amount of time Sam has left before he dies is shown at the bottom center of the screen.

### **Temple Air**

The air in the temple is very stale. When Sam enters the temple he has only one and a half minutes of breathable air. He must exit the temple before this time is gone or he will die. The time remaining is shown at the bottom left of the screen.

### **Map Vault**

In order to open the map vault Sam must grasp a map rock and place it in the proper map rock hole. This is done by positioning Sam under the desired hole and pressing a bottom fire button. If the rock is the proper one the hole will disappear. If it is incorrect the map rock will be relocated somewhere in the temple.

### **Opening Vault**

There are two ways to open a vault door. The first is using the chisel. If Sam strikes the secret rock with the chisel the vault will open. In order to hit the secret rock Sam must be standing as near to the wall as possible. The second method uses the acid. If Sam stands as near to the wall as possible and throws the acid onto the wall, the vault door will be opened.

### **Scoring**

Killing enemies	100 points
Opening vault	100 points
Picking up treasure	1000 points
Inserting map rock	1000 points
Opening map vault	5000 points

An extra man is awarded for collecting 20 treasures.

### Helpful Hints

- Bring all five map rocks to the map vault room before inserting them. This will make it easier to remember which ones you have tried.
- Save one flask of acid as a defense against the mummy.
- Leave one cache of acid flasks in an exposed vault room as an emergency supply.
- Sam can only carry five flasks of acid at a time. If you pick up more you will lose the excess.
- When you are exploring the long columns of rooms keep an eye on your air timer. Only explore half of the rooms at a time.
- Remember where the magic herbs are.
- Position your torch handle over the hole you wish to try when attempting to insert map rocks.
- For a much needed break in the ACTION, press the pause key. To restart the game press any key on key pad.
